(1)Always use seat belts. Children 12 and under should always be in a back seat correctly using an infant or child restraint system, or the seat belt properly positioned, dependent on the child's age and weight. ⁽²⁾ No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESP warning lamp in the instrument cluster flashes, the driver needs to use less throttle and adapt speed and driving behaviour to prevailing road conditions. Always drive carefully, consistent with conditions. Please always wear your seat belt. ⁽³⁾ Not compatible with all garage door openers. See your retailer for details. ⁽⁴⁾ Not compatible with aftermarket fabric protecting coatings. ⁽⁵⁾ Standard on Limited. ⁽⁶⁾ Must use Bluetooth™ compatible mobile phone.
