RENEGADE

2016

RENEGADE

Freedom riders with fuel-saving sensibilities can have it all, thanks to the exceptional value, clever versatility and authentic Jeep® capability found in Renegade. Live the adventurous life, conquering challenging terrain and worrisome weather with strength and style. The cabin is filled with creature comforts and advanced technology alike, creating an interior that has been honoured as one of *Ward's* "10 Best." With Best-in-Class* towing capability of up to 907 kg (2,000 lb), Renegade lets you bring passengers and pets along, with a full load of luggage, gear and toys. Let more light and open-air freedom into your world with the available My Sky™ Open Air Roof System and its convenient removable roof panels that store neatly in the cargo area. This is the world of Renegade, a unique member of the Jeep brand's most-awarded SUV lineup ever.²

TOWING

Best-In-Class⁴ 4x4 CAPABILITY

JEEP[®] ACTIVE DRIVE SYSTEMS

Why do we call them Active Drive systems? Because Jeep Active Drive and Jeep Active Drive Low can actively transition from 4x4 into fuel-saving front-wheel drive (FWD) for a welcome gain in fuel efficiency when the pavement runs smooth and calm. Just keep the Selec-Terrain[®] dial in Auto mode and Renegade will seamlessly match its Jeep engineered capability to the existing road conditions. Adjust the system's Selec-Terrain dial to any other mode and 4x4 capability is always engaged.

KEEP MOVING FORWARD

Both Jeep Active Drive systems can keep you moving forward, even when just one wheel has traction on the ground. If this occurs, the system will automatically adjust to thrust a portion of the engine's power to the wheel (or wheels) with ground contact. This allows Renegade to really grab on to keep you moving forward.

JEEP ACTIVE DRIVE LOW: BEST-IN-CLASS⁴ CAPABILITY

Get tough on the ridges and rocks with Jeep Active Drive Low, featuring Hill Descent Control. Its low range delivers a Trail Rated[®] 20:1 crawl ratio. Exclusively on Trailhawk[®].

POWER TRANSFER UNIT

A strong single-speed unit sends power generated from the engine and transmission to the wheel or wheels that need it most. This allows for enhanced traction and dynamic driving performance.

CLASS-EXCLUSIVE⁵ DISCONNECTING REAR AXLE

Here's what helps make Renegade one of the most fuel-efficient small 4x4 SUVs out there. The class-exclusive disconnecting rear axle seamlessly switches from 4x4 into FWD when Selec-Terrain is in Auto mode, providing a welcome gain in efficiency.

EASY COME: HILL START ASSIST

This standard system helps avoid rollback when starting on steep inclines by temporarily keeping the brakes applied, giving you time to transfer your foot to the gas pedal.

EASY GO: HILL DESCENT CONTROL

Monitors throttle, speed and braking when gravity's pull wants to take over. Brakes are automatically applied for a safe and smooth descent. Exclusively on Trailhawk.

GO YOUR OWN WAY

Explore the world with an expression of confidence that fits your own style of driving. Renegade offers both automatic and manual transmission choices, matched to suitably powerful Jeep® engineered engines. Each delivers an optimal performance experience, built to suit the way you want to go exploring.

Best-In-Class¹ TOWING 907 KG (2,000 LB)

PULL A TON OF TOYS Outfit Renegade with the optional Trailer Tow Group and you'll own the right to brag about your 907-kg (2,000-lb) Best-In-Class towing capability! It's a must-have option for everyone who's on the go with toys that make having fun a lot more fun.

SMOOTH TRANSMISSIONS

CLASS-EXCLUSIVE⁵ 9-SPEED AUTOMATIC TRANSMISSION This available automatic transmission operates with precision when matched to the 2.4L Tigershark™ MultiAir® I-4 engine. Its fine-tuned ratio spread between gears assures quick takeoffs and a consistently refined performance, even in overdrive. The Auto/Stick™ function lets you shift manually for added excitement.

6-SPEED MANUAL TRANSMISSION Matched with the 1.4L MultiAir I-4 Turbo engine, this manual transmission aids efficiency, moving through shifts with smooth gear transitions. Cabin noise is kept to a minimum, whether you're travelling over city streets or off the beaten path to parts unknown.

POWERFUL ENGINES

2.4L TIGERSHARK™ MULTI-AIR® I-4 ENGINE

Acclaimed for its unique and efficient valve-lift system, the Tigershark incorporates a column of oil flow with a precise control of intake valve events. This I-4 burns clean, improves fuel efficiency and reduces emissions with a quiet and refined ride.

HORSEPOWER | TORQUE
180 HP | **175 LB-FT**

1.4L MULTI-AIR I-4 TURBO ENGINE MultiAir technology utilizes electrohydraulic valves for more direct control of air and combustion, improving power up to 10 percent, torque up to 15 percent and fuel efficiency up to 7.5 percent over conventional naturally aspirated engines. Emissions, in turn, are cut an impressive 10 percent.

HORSEPOWER | TORQUE
160 HP | **184 LB-FT**

TRAILHAWK®

Jeep® Renegade Trailhawk rises above all the rest, with accolades as the Best Overall SUV and Best Compact SUV from the Northwest Automotive Press Association. Trailhawk delivers class-exclusive⁴ Trail Rated® capability that's been proven to perform to rigorous standards in five categories: manoeuvrability, articulation, water fording⁶, traction and ground clearance. Renegade is like no other small SUV on the planet, designed to take you to brand-new, heart-pounding, Trail Rated heights.

TRAIL RATED® TEST CATEGORIES

TRACTION Trail Rated traction helps you maintain controlled forward motion. You can climb steep sand dunes, cross icy bridges and master muddy two-tracks. Others may fear untamed terrain, but your Trail Rated Renegade has the traction within to master all kinds of driving conditions.

WATER FORDING⁶ Traverse that stream with confidence, thanks to additional electrical and body seals, plus a high air-intake location. Renegade has the capability to safely manage in up to 48 cm (19 in) of water. Always inspect all waterways before proceeding, just to make sure there are no unforeseen pitfalls.

MANOEUVRABILITY Renegade Trailhawk is born with the athletic ability to navigate narrow gaps and handle emergency situations, while maintaining its integrity on the trails. Precision steering and optimized wheelbase allow for expert navigation.

ARTICULATION Renegade's suspension systems enhance on- and off-road performance by maximizing flexibility, axle articulation and wheel travel. This category indicates that when one or more wheels are elevated, the Jeep 4x4 system helps the others stay on the ground longer to keep you moving.

GROUND CLEARANCE Head out knowing that your Trail Rated Renegade has optimized approach, departure and breakover angles designed to clear logs, rocks and uneven ground. Your undercarriage is protected too, with forged skid plates that cover your vehicle's most valuable underbody elements.

MY SKY™

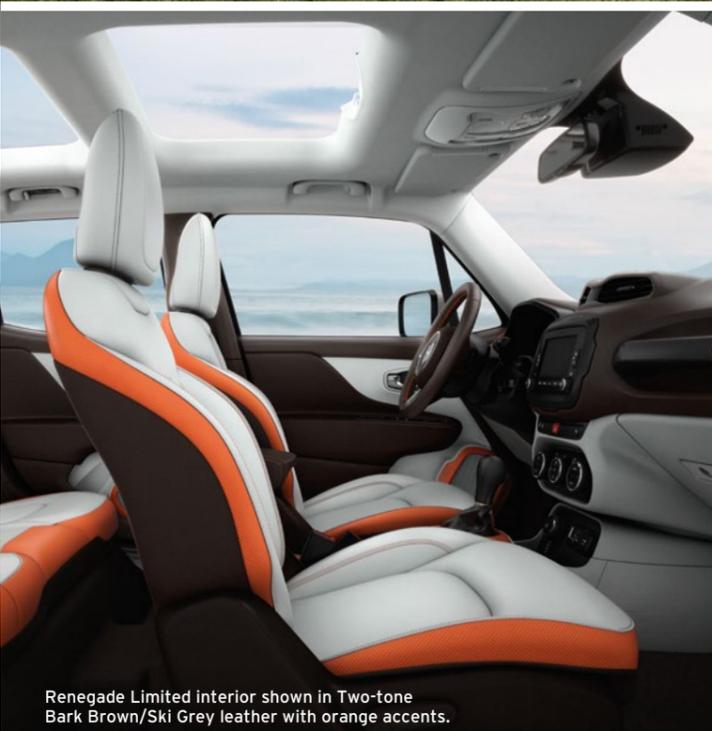

OPEN AIR ROOF SYSTEM

Expand your world with open-air freedom. The available My Sky Open Air Roof System consists of two easily removable panels, optimally sized for flat storage in the rear cargo area. Panels are designed and engineered to be lightweight yet strong and will maintain cabin acoustics when in place.

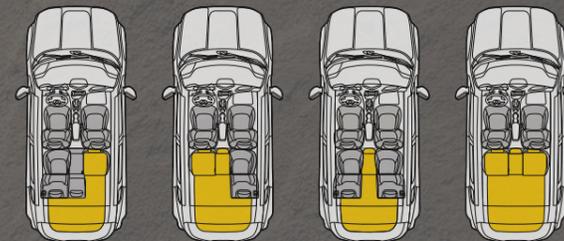

Renegade Trailhawk® interior shown in Black Topographic cloth with red accents.

Renegade Limited interior shown in Two-tone Bark Brown/Ski Grey leather with orange accents.

GO CONFIGURE Bring it on. Accommodate all kinds of cargo and passenger configurations with the Renegade's large interior volume and available 40/20/40 split-folding rear seat. Turn down the 40/20 sections to carry more cargo in the back, leaving the remaining 40 section open for that much-needed second passenger, or fold everything down for serious hauling.

PACK IT ALL IN A height-adjustable rear cargo floor raises up for easy, slide-in loading. Lower it to have more room to carry taller items. The floor is also reversible, with one side stylishly carpeted and the other conveniently cleanable.

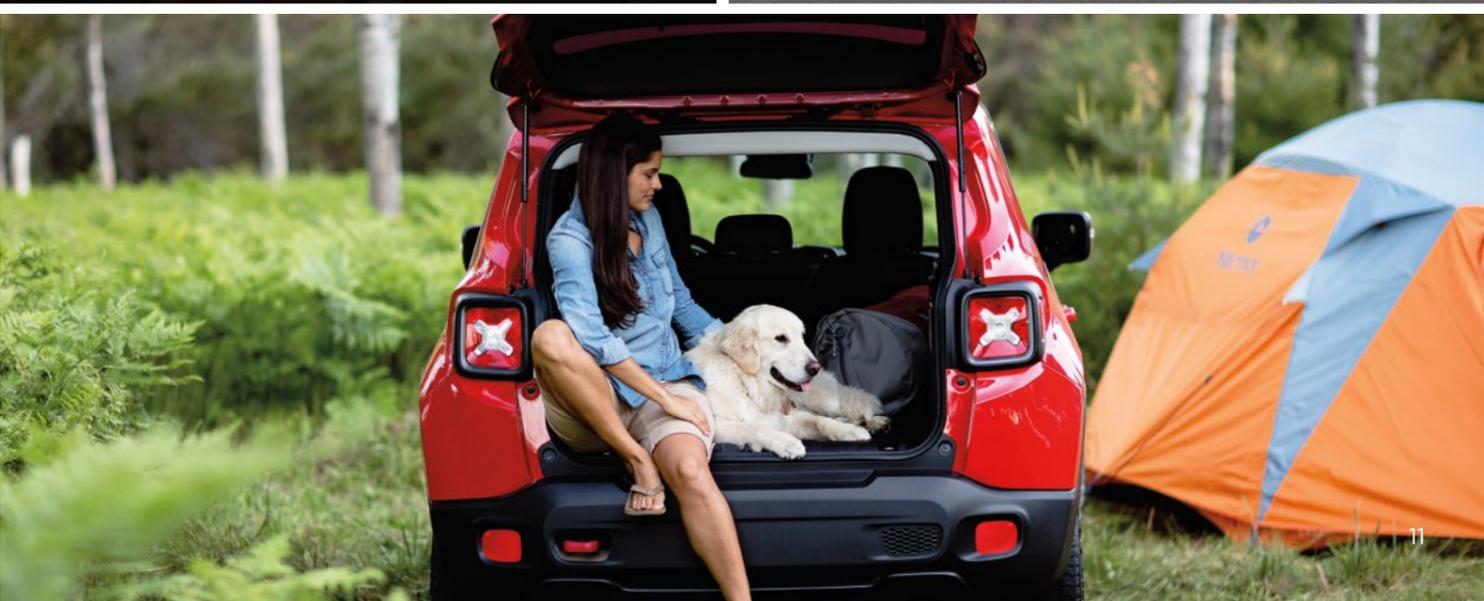

LIVE WELL AND GO FAR

Take on the world in a big way. Within Renegade's roomy cabin, you'll find an interior that offers a vast amount of volume. This is where you'll discover an expansive driving experience that delivers all the latest comforts. Climb inside, get plugged in and connect to a whole lot of fun.

COMFORT SEATING Renegade's standard six-way manual adjustable driver seat and four-way manual adjustable front passenger seat give front-row riders comfort where it counts. Opt for the twelve-way power-adjustable driver's seat including four-way power lumbar adjustment for even more customization. In the second row, three rear-seat head restraints are in place for three passengers. Rear-seat foot room is enhanced by wide front seat tracks.

TAKE HOLD The multifunctional Jeep® brand steering wheel features available accent-stitched leather wrapping and puts cabin commands safe in hand. You have buttons for available cruise, voice and phone control and vehicle performance data. Front seat passengers can take hold of the dash-mounted grab handle when adventures get really exciting.

SHOW YOUR PERSONALITY The modern Tek-Tonic interior is fashioned from an array of textures, fabrics, soft-touch surfaces, bezels and trim surrounds that add a nice dose of colour. Available leather-faced seats are contoured and cushioned for exceptional comfort, and designed with eye-catching contrast stitching.

UCONNECT® Stay informed, entertained and connected with the available premium 6.5-inch touchscreen multimedia centre with navigation⁷ and Uconnect hands-free communication⁸ featuring preformatted text response⁹. One USB port for charging is standard and another is available, so you can power up a number of devices.

PHONE Talking on the phone while driving has never been easier – or more responsible. Available Uconnect hands-free communication⁸ is the in-vehicle, voice-activated calling system that allows you to talk on your Bluetooth[®]-compatible phone virtually hands-free. This clever option is also smart enough to synchronize with your Bluetooth-compatible phone's address book¹⁰ – up to 1,000 entries – every time you get into your vehicle.

VOICE COMMAND⁹ This available feature simplifies driving by letting you keep your eyes on the road and your hands on the wheel. Use your voice to select AM/FM radio stations or SiriusXM satellite radio¹¹ channels, as well as make and receive calls. When equipped, you can also select navigation⁷ destinations and record voice memos.

ENTERTAINMENT You have several ways to access audio. Get the sound going via MP3s, a remote USB port, an auxiliary input jack and Bluetooth streaming audio. Listen to over 120 channels on SiriusXM satellite radio¹¹; enjoy instant replays of your favourite tunes, instantly access any channel playing favourite artists, get alerts when your favourite teams are playing and so much more. Your first year of service is included.

IN-CLUSTER DISPLAY A range of useful information is placed front and centre via the available 7-inch customizable in-cluster display. From navigation to safety alerts, fuel usage to Selec-Terrain[®] data, Renegade lets you view specific info for a very smart driving experience.

beatsaudio **SILENCE ISN'T ALWAYS GOLDEN.** Not when you have the rich sounds generated by the available BeatsAudio™ Premium Sound System by Dr. Dre. Get studio-quality sound, so you can listen to music the way the artist intended. Features eight-channel performance with 506 watts of power, eight speakers and a 6.5-inch subwoofer specifically tuned for Renegade.

PEACE OF MIND TRAVELS WITH YOU

OVER 65 STANDARD AND AVAILABLE SAFETY AND SECURITY FEATURES

ELECTRONIC STABILITY CONTROL (ESC)¹² A standard vehicle-wide network of safety sensors provide instant aid when they detect you're veering off your intended path. ESC coordinates Electronic Roll Mitigation (ERM), antilock brake system (ABS), Brake Assist, all-speed traction control and Trailer Sway Control (TSC), sending them into action when needed.

ELECTRONIC ROLL MITIGATION (ERM) As an extension of ESC¹² the standard ERM employs ESC sensors to anticipate potential risk situations. If things get rough, ERM takes immediate action to help maintain stability and control.

TRAILER SWAY CONTROL (TSC) Crosswinds and traffic hold no sway over you and your payload. As part of ESC, the standard TSC helps keep you and the toys you are towing safely on course.

PARK-SENSE[®] REAR PARK ASSIST SYSTEM¹³ Renegade can help you park and back out with grace. When in Reverse, these available sensors detect objects in the back-up pathway and provide an audible and visual warning so you have time to react.

CHASSIS STRENGTH Renegade delivers exceptional peace of mind with a hero's heart – a strong foundation constructed with advanced lightweight materials with aluminum and high-strength steel.

PEACE OF MIND BEGINS WITH SEVEN STANDARD AIR BAGS¹⁴ Your sense of security is fully met with Renegade's all-around air bag system. Full-length front and rear side-curtain, driver inflatable knee blocker, seat-mounted side for front occupants, and advanced multistage driver and front passenger air bags all work together to help provide encompassing protection.

VOICE COMMAND[®] This optional feature allows drivers to safely send, reply to or listen to a text, take or make phone calls, get navigation directions and more, while keeping both hands on the wheel.

KEYLESS ENTER 'N GO[™] Keep your key fob in your pocket or purse and leave your hands free to quickly open the door, take a seat, push a button and head out for fun. Available.

PARKVIEW[®] REAR BACK-UP CAMERA¹³ Back out safely and with confidence. This available system helps bring previously hidden rear objects to your attention on-screen, allowing time to react.

ADVANCED TECH TO HELP KEEP YOU SAFE

BLIND-SPOT MONITORING WITH REAR CROSS-PATH DETECTION¹³ These available sentry systems constantly monitor the space between you and other drivers. When a side or rear blind spot is encroached, you're notified via illuminated icons on sideview mirrors and, if a turn signal is activated, the system can provide an audible chime.

LANE DEPARTURE WARNING (LDW) WITH LANE KEEP ASSIST¹³ With a forward-facing camera mounted inside the rearview mirror, this available system gauges the vehicle's position between the road lines and monitors its movement down the road. Should the vehicle begin to move onto either line without the turn signal being activated, the LDW system will warn the driver through a slight vibration in the steering wheel. If nothing is done to correct the drift, the system uses the Electric Power Steering system to automatically realign the vehicle to its correct lane position.

FORWARD COLLISION WARNING WITH ACTIVE BRAKING¹³ Radar sensors detect when Renegade may be approaching another vehicle too rapidly. This available active safety feature sends an audible and visual alert to the driver and provides limited braking if the driver does not react in time.

RENEGADE SPORT FWD/4x4

POWERTRAIN

- 1.4L MultiAir® I-4 Turbo with 6-speed manual
- 2.4L Tigershark™ MultiAir I-4 with 9-speed automatic

STANDARD EQUIPMENT

INTERIOR AMENITIES

- 3.5-inch Electronic Vehicle Information Centre (EVIC)
- Cargo tie-down loops
- Cloth seating

DISCLAIMERS: 1) When properly equipped. Jeep "Small SUV" sub-segmentation based on small sport and cross utility vehicles including Nissan Juke, Honda HR-V, Mini Countryman, Mini Paceman, Buick Encore. 2) The Jeep brand SUV lineup has received more awards over its lifetime than any other competitive SUV lineup. 3) Most Capable Small SUV Ever is based on historical Canadian unibody B-SUV segment competitors as identified by *WardsAuto* Small Crossover and Small SUV segments (years 1985 - 2014). 4x4 capability based on Jeep B-SUV offering low-range power transfer unit (PTU) with 20:1 crawl ratio, low-range 4x4 capability. 4) Jeep "Small SUV" sub-segmentation based on small sport and cross utility vehicles including Nissan Juke, Honda HR-V, Mini Countryman, Mini Paceman, Buick Encore. Best-in-class 4x4 capability based on Jeep B-SUV offering low-range power transfer unit (PTU) with 20:1 crawl ratio, low-range 4x4 capability. 5) Jeep "Small SUV" sub-segmentation based on small sport and cross utility vehicles including Nissan Juke, Honda HR-V, Mini Countryman, Mini Paceman, Buick Encore. 6) Do not attempt water fording unless depth is known to be less than 48 cm (19 inches). Traversing water can cause damage that may not be covered by the new vehicle warranty. Always off-road responsibly in approved areas. 7) Never program while driving. GPS mapping and available 3D navigation may not be detailed or available in all areas or reflect current road regulations. 8) Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. Voice commands of phone require a Bluetooth compatible phone. 9) Preset voice-to-text messaging and incoming text message reading requires a MAP-enabled phone. 10) Phone must support Bluetooth Phone Book Access Profile (PBAP). 11) Requires SiriusXM radio subscriptions governed by SIRIUS terms and conditions available at siriusxm.ca 12) No system can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behaviour to prevailing road conditions. 13) This is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of his/her surroundings and be prepared to take corrective action to avoid collisions. 14) The advanced front air bags in this vehicle are certified to the U.S. federal regulations for advanced air bags. Children 12 years old and younger should always ride buckled up in a rear seat. Infants in rear-facing child restraints should never ride in the front seat of a vehicle with a passenger front air bag. All occupants should always wear their lap and shoulder belts properly.
